**StayFlat™ NSF Sheet Pans**  
Made with high-strength aluminum alloy, with steel wire that is completely sealed within the rim of the sheet pan. StayFlat™ Sheet Pan technology increases the strength and longevity of the product. NSF listed.

- Reinforced sides prevent flaring and increases sidewall strength up to 30 percent
- Residual tensile stress within bottom of sheet pan for greater resistance to denting and bowing
- Tension arch flattens when heated, for an even bake
