

Need help choosing an ice machine? Choose your ice type that fits your needs!

Cube

Most common choice, with a wide range of sizes and shapes. (Also called *Diced or Waffle Cube*)

Flake

Soft, randomly-sized chips of ice that cool quickly and look great in displays.

Nugget

Soft and chewable (Also called *Cubelet Ice*). *Nuggets* range in size from 3/8" to 1/2".

Gourmet

Hard, clear cubes that enhance beverage presentation by refracting light, making drinks sparkle. Slow-melting; great for mixed drinks. (Also called *Octagon, Top Hat or Bullet Cube*)

Still not sure?

These buying guides can help you learn about different ice machine types, their cooling methods, how much ice you need for your establishment, and more! Our expert Product Consultants can also answer your questions at 800-222-5107.
