Other shelving sizes and styles available on pages 195-210

Ask your Product Consultant for help in designing a shelving or shelving/dunnage package for your walk-in cooler or freezer!

NORLAKE Quick Ship Walk-In Coolers and Freezers

Coolers hold at +35°F to +38°F. Freezers hold at -10°F. Outdoor walk-ins include membrane roof, refrigeration hood and low ambient controls. All walk-ins ship knocked down. 208/230V single phase, except 1/2 and 3/8 HP models are 120V. Please check local codes with your Product Consultant before ordering.

Units Include:

- 26"Wx78"H door features spring-loaded closer, spring assisted adjustable hinge and inside safety release. Door handle includes keyed lock, deadbolt and is padlock ready. Door can be centered or off center in 12" increments. Door must be centered on 6' wall on 4'x6' Kold Locker™ walk-ins. Specify location as well as left or right door hinge. 36"W door available at a small upcharge on most units. Call for availability and pricing.
- LED interior lighting (with switch), lighted temperature display, and anti-condensation door frame heater (requires 120V connection)
- 4" insulated panels
- Stucco embossed steel walls and ceiling
- Smooth aluminum floor. Indoor and remote coolers also available floorless with vinyl sealers.
