Dormont SwivelMax™ Multi-Plane Fittings for Gas Connectors

SwivelMax™ provides increased flexibility for moving equipment, allows equipment to be stored closer to the wall, provides easier movement for maintenance and reduces stress on connector. Multi-plane design allows rotation in three planes, increasing the service life of the gas connector.

Model#	Thread Diameter	Your Cost
275-021	1/2"	\$59.99
275-022	3/4"	59.99
275-023	1"	99.99

Krowne Gas Hoses and Connectors

Stainless steel corrugated tubing for flexibility and strong internal structure. Hoses are coated in green, antimicrobial PVC. Use with stationary and caster-mounted equipment. **SwivelKing™** gas connectors feature full 360° rotation on both ends to reduce stress on gas hose and extend life of hose. Heavy-duty stainless steel construction will not reduce gas flow and saves space in your kitchen. **Caster positioning system** allows equipment to be returned to a home position, in relation to fire suppression and ventilation systems, after the removal for cleaning and maintenance purposes. Includes (2) caster positioning chocks.
