Chocolate Fountain, Large - professional model

Chocolate Fountain - stainless steel commercial fountain
You won't find a better time to add a chocolate fountain to your catering and party rentals.

A popular feature for wedding parties, every bride wants a chocolate fountain for their reception party.

The American Chocolate Fountain ® has created new opportunities for party and event rentals featuring chocolate fountains. Our large (40 in.) chocolate fountains will hold up to 20 lbs of chocolate and are designed to handle any food product that can be reduced to the flowing consistency of fondue.

- 304 food grade stainless steel construction.
- Tiers slide on and off center tube. No set screws to tighten or loose.
- Quiet Crown - New top crown with our exclusive silent running feature.
- Heavy Duty main shaft bearing.
- Available in 110/120 (U.S.) and all international voltages.
- Motor: 1.0 hp/115 volt/3.0 amp 1380 rpm/41in. per lb. torque
- Measures: 16x16x40" / 40x40x102cm
- Versatile and ruggedly built for years of reliable commercial service.

Set up takes only minutes and operation could not be easier. The heavy duty fountain maintains chocolate at an ideal temperature (approx 105-110°). Our precision stainless steel auger re circulates the warm chocolate up through the fountain and back down over the stainless steel tiers. The upper tier unit and auger disassembles for easy cleaning. Simply remove the top cap, stainless steel auger, outer tube and tiers, then place in the dishwasher for easy cleaning and sterilization.
