Central Restaurant Products
SR-42HZP  
Commercial Electric Rice Cooker

**Thermostat for Precision Control**  
The rice cooker will maintain the cooked rice warm for up to 2 hours under nominal* operating conditions, virtually eliminating burning or overcooking of the rice. As a result, rice is cooked to the Chef’s preference.

**Easy Push-Button Operation**  
The push of a button starts the rice cooking. As soon as the rice is cooked, the unit shuts itself off.

**Alternate Uses**  Not only does it cook rice but can braise, heat liquids and cook many different items – call or see our web page for Chefs Technical Support for recipes.

**Large Capacity**  SR-42HZP can cook up to 23 cups (4.4 qts) in approximately 30 minutes.

**Direct Heating System**  Specially sheathed heating elements heat the pan bottom directly which minimizes heat loss and in turn saves energy costs. A thermal safety fuse will protect the unit from possible temperature rise.

**Easy-to-clean Removable Pan Liner**  The included Aluminum Alloy pan liner lifts easily out of the cooker to make washing and rinsing a breeze. An Optional “Non-Stick” pan liner is available.

**UL and NSF Approved**  SR-42HZP is built with a durability and attention to safety that has earned certification from both Underwriters Laboratories and the National Sanitation Foundation for commercial use.
